Life changing experience!

Harmony Shanghai
海谐文化艺术交流

Harmony Shanghai was founded in 2013 to establish Community Dance.

Our Philosophy:

It is our goal to bring young people of different cultures together through dancing where they can learn from each other, respect each other and most important they make friendship with students from other countries.

During this dance program, for the first time in their life these kids discovered the joy of dancing to classical music. They got skills in teamwork, they became creative, they learnt how to push themselves to reach the goal to perform on stage – it surely changed their lives.

AWARENESS - TOLERANCE - CREATIVITY- SELF CONFIDENCE - TEAM ABILITY- etc... are only some personal steps of development of every single child.

STORYMAKER

JungleFish

Depends on our goal from the very beginning we want to give young people independent from their background this "life changing experience".

In 2020 we open up our scope. We invite everyone – students, adults, foreigner, Chinese residents and people from the whole world living in Shanghai.

Sponsors wanted!

Let us make together this impact to the communities of Shanghai.
